## About This Content

### Victory or Death - what shall it be?

The final chapter of the "krieg" trilogy is here: after four years of campaigning the battle-tested Wehrmacht will have to face its hardest challenges in **Order of Battle: Endsieg**.

The Endsieg campaign, the biggest and longest yet, includes 16 unique scenarios. The story begins right after the Battle of Kursk, where the game provides the option to import a core force from either the Panzerkrieg or Sandstorm campaign.

The first five scenarios are based on the historical 1st Soviet offensive in the Donbass in summer 1943, up to the Leningrad–Novgorod strategic offensive in early 1944. A decisive defeat of the Red Army will eventually allow total victory over the Soviet Union, while failure to do so will turn the campaign away from the Eastern Front and into the Battle of Anzio in Italy.

In the second part of the campaign the player's forces are transferred to the west, where the Allied invasion of Normandy has opened a new front. Initially you'll be forced on the defensive, and you'll be tasked to extract other German forces from the Falaise trap, defeat Allied airborne units in Market-Garden, and defend the city of Aachen and the Huertgenwald against heavy attacks. By reaching a decisive victory in the German Ardennes Offensive in December 1944 the tide of the war can finally be turned again, leading to a set of ultimate battles to destroy the Allied armies once and for all.

Covering the final years of the war, Endsieg offers powerful weapons such as Tiger II heavy tanks, Jagdpanther tank destroyers and Me-262 jetfighters as well as several new specializations. But beware, the enemy has brought many deadly new weapons of

1 - Zero Game play other than run around the map shooting zombie's, no mission, no nothing, maybe a wave survival with out the waves??

2 - Running is more like jogging, this guy has a death wish for sure.

3 - You have to be walking to reload and you have to freak out on the reload key, say goodbye health.

4 - All these buildings but you cannot go into any of them???

5 - Loads more problems and game play issues i could list for ever.

*I love game's with Zombies but this is another bad example of how not to make a Zombie game, Asked for a Refund.*

There is some problem with this game. Not worth wasting a single buck. Don't be stupid like me!. Great game. The story is interesting. Although the game is enjoyable played on its own,, I recommend playing all the DP games in order because each game builds on an overall story.. So so. Too easy, however I stuck once so here is advice: read your journal. As for game overall. It has same instruments as many others quests\adventures. Inventory, multiple items combination, go-there-take-that. It has built-in achievements system under-par storytelling for kids, smooth graphics and animation as well as some cut scenes. For me It lands at 5\10.. I really enjoyed the atmosphere of this one. It had cool secret passages,. Otherworldly and haunting. It reminds me of the experimental games I played a lot when I was younger. Try things out, try to understand, see what you find.. Like this games graphics and music.Enjoy the bat ball genre,good game!
